

# Photoshop® Tip: Motion Blur

1. Open Image
2. **Filter > Blur > Motion Blur**
3. Adjust angle to match angle in image.  
*Move Distance slider for desired effect.*

4. Add **Layer Mask** to image by clicking on the **Layer Mask** button at the bottom of the **Layers** palette.
5. Select the **Brush** tool. Use black to cover the effect. If necessary, hit the "X" key to switch between the foreground and background color.

6. Adjust the **Brush** tool size and **Opacity** settings for a better transition between layers.

7. **Layer > Flatten Image**
